## ITEM 4: ADVISORY BUSINESS

---

### A. Description of the Firm

Bache Capital Management (“Bache Capital”) is an Investment Advisor with the State of California. Mr. Stephen K. Bache is the President and sole owner of Bache Capital.

### B. Types of Services

Bache Capital Management, a personal service firm, offers *peace of mind* to the individual investor. The firm’s goal is to manage your wealth so as to maximize growth and minimize risk. We achieve our above average risk adjusted performance by investing primarily in industry leaders less likely to show wide fluctuations through a market cycle. Bache Capital diversifies client portfolios among common stock, preferred stock, corporate and municipal bonds and cash equivalents.

Bache Capital manages client assets through discretionary accounts on a fee-only basis for individuals and for corporate pension and profit-sharing plans.

### C. Tailoring Services to Needs of Clients

Setting Bache Capital Management apart is its strategy of structuring portfolios for individual needs. We do not have a “boilerplate” formula that allocates all of our clients’ funds in the same combination of companies. We take into consideration your income needs and your tax requirements. What is good for another client is not necessarily appropriate for you. Our aim in serving you is threefold: (1) to implement a value-oriented and diversified strategy in choosing equities (common stock); (2) to adopt a “laddered” approach to fixed income securities (bonds); and, (3) to balance your portfolio between equities and fixed income based on you need for income and your risk tolerance.

To help you manage your wealth, we furnish you state of the art reports that can assist you and your other professional advisors in tax and estate planning. We prepare a full appraisal for you each quart and at the end of each year, and we compile tax reporting data for you. We can provide custom-tailored reports to help you whenever you need them.

### D. Wrap Fee Programs

Bache Capital Management does not offer wrap fee programs.

### E. Managing Assets using Discretion

As of December 31, 2020, Bache Capital Management manages \$90,888,000 on a discretionary basis.

---

## ITEM 5: FEES AND COMPENSATION

---

### A. Fees Charged

Investment advisory fees are negotiable. Compensation to Advisor for its services will be calculated in accordance with the standard fee schedule outlined below which may be amended from time to time by Advisor upon 30 days prior written notice to Client. The market value will be the sum of the values of all assets in the account, not adjusted by any margin debt.

Assets Under Management	Annual Fee	Quarterly Fee
\$0 - \$1,000,000	1.00%	0.25%
\$1,000,000 - \$5,000,000	0.75%	0.1875%
\$5,000,000 +	0.50%	0.125%

Minimum fee is \$2,400 per annum.

For purposes of determining value, securities and other instruments traded on a market for which actual transaction prices are publicly reported shall be valued at the last reported sale price on the principal market in which they are traded (or, if there shall be no sales on such date, then at the mean between the closing bid and asked prices on such date). Other readily marketable securities shall be priced using a pricing service or through quotations from one or more broker dealers. The Advisor may modify the terms in this Section prospectively on at least 30 days prior written notice.

In certain instances, the Advisor may provide investment advice for selected clients at a rate of \$480 per hour.

### B. Payment of Fees

In consideration for the Advisor's services, the Client will pay the Advisor a fee quarterly in advance, with payment due within 10 days from the date of the invoice. The fee will be equal to the agreed upon rate per annum, times the market value of the account, divided by the number of days in the agreed upon year and multiplied by the number of days in the quarter.

Such fees may be paid directly to Advisor from the account by the custodian upon submission of an invoice to custodian showing the amount of fees, and to the Client reflecting the value of the Client's assets on which the fees are based, and the specific manner in which the fees are calculated. The Client bears responsibility for verifying the accuracy of fee calculations.

### C. Other Fees Paid by Clients

Client may be required to pay, in addition to the Advisor's fee, a proportionate share of any mutual fund's fees and charges. All brokerage commissions, stock transfer fees, and other similar charges

incurred in connection with transactions for the account will be paid out of the assets in the account and are in addition to the investment management fees paid to Advisor.

#### **D. Proration of Fees**

Fees for partial quarters at the commencement or termination of this Agreement will be billed or refunded on a pro-rated basis contingent on the number of days the account was open during the quarter. Quarterly fee adjustments for additional assets received into the account during a quarter or for partial withdrawals will also be provided on the above pro rata basis.
